Mr. Brian Dalrymple
Quality Manager
H-S Tool & Parts, Inc.
#140 – 2560 Simpson Road
Richmond, B.C., Canada
V6X 2P9

Dear Brian,

I am pleased to inform you that H-S Tool & Parts, Inc. has been accepted as a Q1 level supplier to Honeywell Aerospace Greer Repair and Overhaul facility. This qualifies you to ship material to purchase order requirements, under the terms and conditions of our purchase order quality clauses in our Supplier Guide AS-VP-002-1, latest revision.

This approval is based on your responses to the self audit, H-S Tool & Parts, Inc. being an Approved Maintenance Organization by Transport Canada, and JAA Acceptance. It will remain in effect providing your quality standards are maintained. You are subject to resurvey due to poor quality trends, changes in specifications, a change in your approval status by other facilities, or the discretion of the Honeywell Aerospace Greer Repair & Overhaul Quality Leader.

Please maintain this letter on file. Review and disseminate the Supplier Guide as appropriate within your organization, and return an acknowledgement of receipt.

Congratulations, I look forward to a productive business relationship.

Sincerely,

Stephen Baker
Senior Product Engineer
Honeywell Aerospace
Greer Repair & Overhaul
